

## REGISTRATION FORM – MATRICULATED STUDENTS

***This form should only be used after online registration has closed.***

Students are expected to review their [program of study](#) each term to monitor their progress toward meeting the degree program requirements specific to their major.

Use HIU's [Requirement Substitution Request](#) form to register for any courses that would not, by default, count toward your program of study. The Registrar's Office cannot audit courses during registration activity.

It is the student's responsibility to register for the right courses in consultation with their academic advisor.
